

Parent Guidelines for Successful Home Visits

1. One of the most important components of the home visit program is parent involvement. By being a part of the home visit, you will be able to continue with appropriate activities during the rest of the week with your child.
2. The teacher will arrange a time and day of the week that will be beneficial for your child, you and staff schedules.
3. Home visits will occur once a week for one and a half hours. During this time, please ensure that the television and radio are turned off and that visitors are limited.
4. Please prepare an area of your home that can be used during the visit. The work area does not have to be fancy. A clean table or rug will work.
5. Please alert the teacher to any illness in your home. The home visit may need to be canceled and rescheduled for a future date.
6. If you need to cancel a home visit, please notify the teacher as soon as possible.

I have read and understand the above guidelines.
