

Parent Guidelines for Successful Home Visits (Hot Sheet)

CF/E-23 Revised 1/12
(mandatory)

One of the most important components of the home visit program is parent involvement. By being part of the home visits, you will be able to continue with appropriate activities during the rest of the week with your child.

1. Staff will review all of the guidelines on the form with the family at time of registration.
2. The parent will sign and date the form stating that they understand the guidelines presented to them.
3. This form should be placed in the child's file.
