

Diaper Chart

(Hot Sheet)

CF/E-4 Revised 1/02

(mandatory)

1. Use appropriate entry from the KEY at bottom of chart for each diaper change.
2. The primary caregiver is to initial under each entry in the same square.
3. Comments may be added if necessary, i.e.: loose bowels, small amount.
4. Entries should reflect a regular pattern of diaper checks and changes to insure the infant/toddler is clean and dry at all times.
5. At a minimum diapers should be checked every 2 hours. If the infant does not need a diaper change, the primary caregiver is to make a check (see key) in the box and initial to document the diaper was checked.
